Office hours: by appointment

As one of the most important features of today's globalized world, migration remains highly debated on local, national, and international levels. Migration is assigned various meanings and statuses (high-skilled and low-skilled, legal and illegal, documented and undocumented, forced and voluntary, restricted and unrestricted), which are, in turn, contested in multiple ways through grassroots activism, academic and artistic interventions, as well as the work of local and international NGOs. Today, migration affects everyone regardless of their own migratory status, and many contemporary societies – especially but not exclusively their urban centers – have been described as postmigrant or superdiverse. The course critically explores migration from global and local perspectives, emphasizing the postcolonial and neocolonial power geometries that produce specific forms of mobility. Drawing on a range of primary texts (UN documents, first-person narratives, poetry) and analytical contributions from migration studies, cultural studies, anthropology, urban sociology, human geography, and philosophy, students will examine diverse social experiences of migration, as well as a range of related concepts such as belonging, border, citizenship, and solidarity, among others. The in-class discussions, guest lectures, off-campus visits, as well as group and individual assignments aim at deepening students’ understanding of migration regimes, migration discourses, and migrant infrastructures in various geographical and historical contexts. Designed by scholars and educators from across the Bard International Network (AlQuds University in Palestine, American University of Central Asia in Kyrgyzstan, Bard College in the United States, Bard College Berlin in Germany), as well as faculty and students from the Mellon-funded Consortium on Forced Migration, Displacement, and Education (Vassar College, Sarah Lawrence College, Bennington College, Bard College, and Bard College Berlin), the course aims at advancing students’ understanding of migration both in the specific local contexts in which they study, as well as from international perspectives. Through a series of joint assignments, students will have a unique opportunity to engage with their peers and professors from other campuses.

Requirements

Attendance and participation
Your preparation for class, attendance, and participation are crucial. Please complete the required readings, do your homework, be on time for each class, and contribute regularly to the discussions. Please consult the Student Handbook for BCB’s policy on absences and notify me in advance when you know you will miss a class. Attendance and participation make up 30% of the final grade. A self-assessment rubric will be distributed in class and completed at the end of the semester.

COVID-19 provisions
In Spring 2021, some students may need to begin the semester remotely due to travel restrictions caused by the pandemic. Also, all students and instructors must refrain from in-person attendance if they are feeling ill or exhibit any symptoms linked to COVID-19. Hence, the assignments for this course are conceived in a way that allows all students to complete them remotely. More details on the specific format of each session will be shared via email on a weekly basis to accommodate any changes that may occur.
Readings

All the readings will be available via Google Classroom. You will also need to purchase your own copy of Valeria Luiselli’s *Tell Me How It Ends: An Essay in Forty Questions* (2017). On a weekly basis, you will be expected to devote about four hours to complete all the readings. As you read the assigned texts, please remember to annotate them: write down questions, comments, observations – we will use them as a basis for our class discussions. I recommend you buy a paper notebook for this course so that all your comments and questions are kept in one place. Please note that several of the readings (marked red in the syllabus) will be shared across the Bard network campuses taking part in this co-taught course initiative.

Assignments

Several assignments will add up to your final grade for this class alongside your participation grade: 1) an image assignment (10%); 2) a keyword (20%); 3) a cross-campus peer review (10%) 4) a 3000-word academic essay or a sound project (30%). Most of the assignments will be developed in several stages, allowing you to revise your and your peers’ work. The deadlines for the network assignments will be announced at the beginning of the semester. Please make sure to check Google Classroom regularly for the in-between deadlines and details regarding the assignments. You will receive grading criteria for each assignment separately.

Policy on Plagiarism and Late Submission of Papers

As specified in The Student Handbook, “Bard College Berlin students are expected to adhere to the highest standards of integrity and intellectual engagement in their academic work. Attendance and thorough preparation for class, as well as commitment to the pursuit of excellence in written work, are fundamental requirements of Bard College Berlin’s programs.” Acts of academic misconduct (plagiarism, self-plagiarism, collusion, cheating) will be reported and result in a disciplinary process (please see the Student Handbook for more details).

Assignments that are up to 24 hours late will be downgraded one full grade (from B+ to C+, for example). Instructors are not obliged to accept essays that are more than 24 hours late. If I agree to accept a late essay, it must be submitted within four weeks of the deadline and cannot receive a grade higher than a C. Thereafter, the student will receive a failing grade for the assignment.
