

Comprehension quiz & review using an online form like Qualtrics

Course Type/ Level:	Foreign Language Course (Any level)
Assignment Goals:	This assignments goal is to help students review and test their knowledge of a language subject. This can also be used as a daily assessment of student's progress.
Materials to Provide Students:	Link to the online quiz/form
Technological Resources Needed:	An online form technology such as Qualtrics or Google Forms
Preparatory Steps:	Before class, prepare an online mini-quiz (3-10 questions) that students will answer as they join class. Also ensure that when showing the results of the quiz to students after taking the class that the form is set up such that all answers are anonymized.
Tasks/Activities: (Outline of the steps this activity or assignment requires)	In this activity, the instructor creates an online comprehension quiz for students to complete during class. Generally, the comprehension quiz is given during the first few minutes of class. These quizzes can cover the vocabulary words assigned since the last class, details from the text given, or character recognition for languages like Chinese or Japanese. After finishing the quiz, the instructor then goes immediately through the results tabulated by the online form, how the students answered (anonymized), and how to correct errors students may have made.
