Clarification of Junior sabbaticals and timing of sabbaticals in general:

- Junior sabbatical—Faculty hired in Category A or B are eligible to apply for and be granted a Junior sabbatical upon rehiring for a second contract. Sabbatical is taken in either the fall or spring semester of the year following the renewal of contract. A plan for the sabbatical constitutes the application. It is granted by the President. The new sabbatical clock (10 semesters) begins in the semester following the Junior sabbatical.
- Faculty hired in Category A who choose not to take a Junior sabbatical are granted a sabbatical in their 13th semester, should they be granted tenure, or receive a terminal semester sabbatical in their last semester (14th) under contract. A second sabbatical for those granted tenure occurs in the 22nd semester of employment.
- Faculty hired in Category B who choose not to take a Junior sabbatical are granted a sabbatical in their 11th semester should they be granted tenure, or receive a terminal semester sabbatical in their last semester (12th) under contract. A second sabbatical for those granted tenure occurs in the 22nd semester of employment.
- Faculty hired in Category C are subject to a tenure decision in their third year. If granted tenure, the first and second sabbaticals occur in the 11th and 22nd semesters of employment. If not granted tenure, no sabbatical is forthcoming.
