Computer equipment replacements for tenure-track faculty are on a four-year turnover. Your equipment is covered under warranty through this time frame. All orders will be placed through the Information Technology Services department. If your equipment requirements are beyond what the campus standard offers, you will need to obtain approval from the office of the Dean of the College. Once you have obtained approval, the excess cost for the equipment beyond standard will be charged to your departmental budget. Microsoft Office Suite and antivirus are standard software offered by Bard for both platforms.
