COURSE DESCRIPTION

Using the backdrop of Berlin, this class will explore the history of photography by many Berlin based photographers while learning how to use a manual camera, and printing black and white photographs in an analogue darkroom.

This class is designed for beginning photography students interested in learning to effectively use photography as a means for self-expression or cultural comment. Course structure is based on the assumption that students are coming into the class with little to no experience. Mastery of basic skills and conceptual principles is key to the student's success. This class aims to provide students with a rigorous training in the mechanics of the 35mm camera, darkroom technique (photographic printing), basic composition and photographic history. We will also explore critical issues surrounding photography as artistic medium, and presentations made by students and class discussions. Though technical skills are stressed in this course, image content is equally important.

REQUIREMENTS

Students are expected to:

- Use the designated printing times given to each student at the beginning of the semester. If the time is not used, please contact the Professor.
- Be prepared to present artworks / assignments / presentations without reminder.
- Engage in critiques and discussions.
- Initiate appointments with the Professor or arts staff outside of class time when assistance is necessary and needed.
- Always allocate extra time for work preparation and clean-up for independent production - this class demands a lot of time, so please be ready to engage.
- Respond to emails and/or text messages from the Professor in a timely manner.
- Inform Professor at beginning of semester if photos of student, artwork, works in progress are NOT to be taken and / or used for Bard College Berlin.
- Students are expected to purchase 36 exposure Black and White film and photographic paper as needed for class assignments.

Attendance and special considerations for FALL 2026:

All students must refrain from in-person attendance if they are feeling ill.

- Attendance of ALL classes is expected.

- More than one absence (that is, absence from one three-hour session per week) in a semester will affect the participation grade for the course.
- Students are expected to attend all off-campus classes punctually, from start to finish. If there is a scheduling/travel conflict, the Professor must be informed in advance.
- Tardiness after five minutes will be considered an absence unless the Professor is contacted at least 1/2 an hour before class.

Policy on Late Submission of Artworks / Presentations

Assignments (artworks and oral presentations) that are up to 24 hours late will be downgraded one full grade (Example: B+ becomes C+). Professor is not obliged to accept assignments that are more than 24 hours late. Where the Professor agrees to accept a late assignment, it must be submitted within two weeks of the deadline and cannot receive a grade of higher than a C.

Thereafter, the student will receive a failing grade for the assignment.

Grade Breakdown & Assessment

As it is almost impossible to make an overall grading structure that would apply to each student, I feel it most important to make the grading scheme based on each student's individual ability. What plays a vital role in this, is doing the best you can in class.

There are some standard points that will be checked off in creating your grade which Include: coming to class on time, handing your work in on time, participating in the class and cleaning / maintaining the darkroom and finally, being prepared and ready when class starts. During the semester, all assignments will be graded and commented on by way of an email. If you feel that you are unsure of your grade and want clarification, please do not hesitate to contact me, I am always happy to discuss.

Students are also assessed on their ability to work independently and responsibly. They will be graded on their ability to communicate with the Professor as well as amongst themselves. This also includes their ambition to create artworks as well as their willingness to budget their time for all requirements connected to this class. This assessment also includes preparation, production, and cleaning up of spaces used at P98 at Bard College Berlin.

Anticipated Costs for this Class

Each student will be expected to purchase their own film and paper for this class. We suggest buying materials with other students - it's cheaper! The total cost for this class can run between 150€ - 275€ - this completely depends on each student and how they use their materials. It is suggested to buy materials together!

MATERIALS LIST

- + 5 (-/+) rolls of film > 400 ASA film : €5 - €15 per roll
 - + (depending on where film is purchased - buying film in bulk ('10 roll bricks') can be cheaper)
- + Photographic paper - see below for suggestions & specifications
- + Negative sleeves (this should definitely be bought as a group!)
- + Binder to keep your negatives organized and clean!

FILM (prices based on Fotoimpex and Foto Kotti prices as of July 2026)

Fotoimpex, Alte Schönhauser Str. 32b, 10119 Berlin

FOMA Fomapan 400 ASA 135-36 = €5 (*only at FOTOIMPEX)

> if you buy 10x of this film it's €4.92 per roll

AGFAPHOTO APX 400 - 135/36 = €6.99

ILFORD Delta 400 ASA 135/36 = €10.10

KODAK TRI-X 400 ASA 135/36 = €10.95

ROLLEI RPX 400 135-36 = €9.60

Foto Kotti has a large selection of black/white film, but they are farther away from campus.

Prices at Foto Kotti, Skalitzerstr. 134, 10999 Berlin

Monday - Friday 10 - 18h

Saturday 10 - 15h, Closed on Sundays

Fomapan 400 Action = €6.00

AgfaPhoto APX 400ASA = €7.00

Ilford PAN 400 = €9.00

Kentmere Pan 400 = €9.00

PAPER*

The amount of paper you use in this class is dependent on you, but you can count on at least 150 sheets of paper.

Most important: MULTIGRADE/Variable paper! RC (resin coated!)

Paper surfaces: Hochglänzend (high gloss), Seidenmatt (silky matt), Pearl (pearl), Matt (matt)

> I highly suggest starting off with HIGH GLOSS paper - it's easier to use

Paper brands:

Cheaper: FOMA Fomaspeed, ADOX Easy Print RC 311

More expensive: Ilford

Paper size: 18 x 24cm (a little bit smaller) or 24 x 30cm (a little bit bigger = which is best for contact sheets) but it might be worth your while to get two paper sizes - one (a bit larger size) for contact sheets and one (a bit smaller in size) for prints

*Another tip would be to buy paper on eBay - when doing so, PLEASE make sure the paper is Resin Coated or RC paper ONLY!!

You are not allowed to print with any other paper except RC paper in the darkroom!

PROCESSING / LABS

Processing film is very, very challenging. Everyone goes through the experience of damaging or losing a roll of film due to the way they have processed the film. I have made a series of videos of myself processing a roll of film which you can use to accompany you during your film processing experience. Please find them here:

Part 1: https://drive.google.com/file/d/1X7rQo8YPOk0R42xjGVIDosB_GDRJPh_8/view

Part 2: <https://drive.google.com/file/d/1JWiJ1afm4Yu9dEdjevFDBSKDBX3eBrj4/view>

Part 3: https://drive.google.com/file/d/1tu_p3YDLG5tvMnCQNb5zJwaFOqDyXKO_/view

If you don't want to process yourself - you can go to one of these labs BUT the turn around time can be up to 3 days when it only takes 30min to do it yourself! (All of these labs also sell black and white film, but mostly do not sell photo paper)

FALL 2026 WEEKLY SCHEDULE*

*There may be adjustments to the timing of assignments as course progresses. All students will be informed of any new expectations and/or deadlines. It is the sole responsibility of each student to be in charge of getting their own film developed at the lab close to campus.

Every assignment requires you to hand in test strips for your prints and contact sheets in addition to your prints.

ANYTIME you submit more prints than what the assignment calls for, you will ALWAYS receive extra credit!

September 1: Week 1

Introductions, expectations, and rules. Assignment of printing times in the darkroom.

Introduction to the darkroom and some photogram printing!

For next class:

Bring 3 digital prints of casual portraits you have made with your phone within the last 3 months. Print the portraits in 10x15cm at DM or Rossmann (there is a Rossmann really near campus next to the REWE) near you and make sure the images have been converted to black and white!

September 8: Week 2 - In class shooting assignment and film processing demo

Cameras handed out

Review printed out images that you brought to class

Tutorial on how to use an analogue camera.

Assignment #1 (due 15 September):

Work in pairs — Shoot one roll of film during class!

Fill in documentation form for each shot taken, starting with frame number 37 which must be included when you submit your assignment.

Assignment #1 should include:

- A. Processed negatives
- B. Filled in log sheet of each frame.

September 15: Week 3

Assignment #1 due today!

Tutorial on how to use an enlarger and process film

Demo: Make a contact sheet

Assignment #2 Due 29 September:

Two (2) prints, plus contact sheets for each roll of film, are due on **29 September!** The prints should include the following: a bracketed image, one should be a panning shot, one should have shallow depth of field and one should include everything in focus) from the film you have shot so far (3 rolls)

1. Copies of all of your test stripes for each image you have printed
2. Your name and all relevant information about printing (exposure time, F-stop of your lens at enlarger station) **MUST BE WRITTEN** on the back of your print with PENCIL

September 22: Week 4

Tutorial on how to make a print

Demo: Make a print in the darkroom

Bring your negatives and contact sheets to class and be prepared to enlarge one negative in class. You will need photographic paper today!

September 29: Week 5

Assignment #2 due today!

Critique day - How to critique a photograph? What to look for? How can composition be analyzed? How do we analyze the technical elements of a print?

Second half of class is an introduction to the the first section of the class:

SECTION 1: FAMILY PORTRAITURE

Assignment #3 Due 13 October!

Shoot 1 roll of film of 6 different people.

Focus on portraying each person the best way you can.

Three (3) prints will be due on 13 October in class. (More prints = extra credit!)

This assignment focuses on the family portrait. You most likely can't photograph your blood family (but if you can, great!), therefor this assignment is asking you to think about who you consider your new or current family now that you are at BCB, and in Berlin. Please interpret this assignment how you see fit, the 4 photographs you include must be the following:

- + a portrait of one person by themselves
- + a portrait of two people together
- + a family portrait - with at least 3 people in the image

Slide presentation of an assigned photographer who works with portraiture.

Is Assignment #4 and it is due 6 October!

October 6: Week 6

Assignment #4 due today - 7 - 10 min presentation on a photographer that has been assigned to you

Go over any darkroom questions or issues people might be having.

October 13: Week 7

Assignment #3 is due today!

Special Handouts are given out today for Assignment #5: The Photo Sleuth which is due 27 October!

Go over any darkroom questions or issues people might be having.

FALL BREAK ———> October 19 - 23!

October 27: Week 8

Online class today!

Assignment #3 - The Photo Sleuth Assignment is due today!

November 3: Week 9

Photo Darkroom Facilities

Platanenstrasse 98

** Guidelines given during orientation

Facility Policies: Photo Darkroom – Plantanenstrasse 98

- 1) The BCB Darkroom has facilities available only to BCB students who are currently enrolled in the photography class - please respect this rule.
- 2) Chip access to the building will only be granted to those students currently registered for the analog photography class - please note we have limited materials each semester and if the materials are used up by an unusual amount of usage (meaning non-students are using the facilities) students will be responsible for purchasing their own chemistry.
- 3) No smoking is allowed anywhere inside the building.
- 4) Fire exits and lanes (black-taped areas) must be kept clear of any obstructions.
- 5) DO NOT EAT ANY FOOD IN THE DARKROOM! Food must be always cleaned up and removed immediately. Any food used for an art project requiring refrigeration must be labeled with one's name, and disposed of after presentation. All food must be disposed of in trash cans.
- 6) All students must always be respectful of other student artworks and personal property.
- 7) No sandals, flip-flops, or bare feet will be allowed inside the darkroom.
- 8) Students should always use the ventilation fan in the darkroom while working in the darkroom
- 9) If there is any problem within the darkroom, please contact either Janina or April right away.
- 10) Students must be aware of who else is working in the building after dark. Any curfews established by Bard College Berlin must be respected. Finishing production and cleaning up must happen before the curfew time.
- 11) Students must make sure all lights are turned off, everything is unplugged and doors are closed when leaving the building. No windows or doors are to be left opened or cracked. All electrical items must be unplugged when not in use.
- 12) Any unidentified property left in any common space is subject to either be taken or thrown out, without restitution. All private property MUST be labeled and stored in its proper location.
- 13) All students must respect signage posted in the darkroom that may involve rules that are not mentioned in this document.
- 14) During completion week, any space used by a student must be cleaned including walls and floors. All students must accept the penalty of grades being affected and / or fines imposed if items are left by the inspection deadline.
